

# The Challenge in Latin America

The church in Latin America is growing at a rapid pace, but due to a lack of good solid Bible teaching in the churches there is little Christian growth, and many churchgoers drift away. Adding to this problem is the fact that the majority of Christian books published are popular but not biblically sound.

The External Studies courses from Moore Theological College in Sydney have been in use in Latin America for 15 years, with some 2,000 students currently studying the Scriptures through them. However, very few of the recommended texts for these courses are available in Spanish. Historically, it has been very difficult to convince Latin American publishers to publish the few good books that have been translated.

In the western world we have access to so many solidly biblical books; Spanish speakers have access to so few!

## The way ahead

To help overcome these problems, in 2006 Grahame & Patty Scarratt, who have worked in Theological Education in Latin America for over 30 years, set up a publishing company called *Torrentes de Vida*. Its sole purpose is to publish these great books that we enjoy and take so much for granted in Australia and other western countries. Some 13 books have now been published and more are in the pipeline. The *Life Change through Christ Trust* has been set up to support this wonderful initiative.

The *Life Change through Christ Trust* aims to achieve its purpose by subsidising the publication of key Christian books and materials and enabling them to be sold at a price that the majority of people in Latin America can afford to pay.
